Considering studying in Germany? Take the Test for Foreign Students (Test AS) offered by DAAD. It's a great way to assess your readiness for university life in Germany. Ludwig Maximilian University (LMU) recommends this test to help you gauge your academic abilities and prepare effectively.

THINGS TO CONSIDER

These are the things you should keep in mind when choosing to study Economics abroad.

1

What are my interests? Economics is a very varied. We recommend reviewing different curriculums, with typical combinations being with banking, business management or politics.

2

How are my analytical skills? Economics requires strong analytical, mathematical and quantitative skills. Make sure these are aspects you enjoy!

3

What about the finances? When exploring options for studying abroad, consider looking into public universities in European countries like Germany and Norway. These countries offer the incredible benefit of tuition-free education to all students, including international ones.

OUR TOP PICKS - COUNTRY EDITION

As much as there is variety of options, our three top picks countries with high level of satisfaction, career prospects and housing highly-acclaimed business schools.

1

US

The US is home to many leading universities in Economics. Indeed, 7 of the 10 best schools of economics in the world are there. As such, there are many great options to study economics. Even more, a 2011 study done by [Georgetown University](#) showed economics graduates in the US earned a median \$70,000!

2

Netherlands

The Netherlands has a very strong reputation in Economics. Beyond being one of the happiest nations, data shows that Economics is among the most widely-taught subject there. It also homes global market leaders including highly successful local companies like ING, Unilever, Philips, Shell, and Heineken.

3

China

China is a successful and increasingly knowledge-based global power. Its rapid economic growth and development make it an interesting case study for students of economics, beyond offerings other benefits such as a high quality education at an affordable price compared to most other options.

OUR TOP PICKS - BUSINESS PROGRAMMES EDITION

Please note that this reflects only our opinion. It should not replace the need for research based on your own preferences.

1

Economics - University of California, Berkley

The program equips students with the analytical tools and critical thinking skills necessary to navigate complex economic challenges. With renowned faculty members at the forefront of economic research and policy analysis, students engage in a diverse array of topics ranging from microeconomics and macroeconomics to econometrics and behavioral economics.

2

International Bachelor Economics and Business Economics - Erasmus University of Rotterdam

With a rigorous curriculum taught by leading academics and industry professionals, students gain a solid foundation in economic theory and its real-world applications. Whether pursuing careers in finance, consulting, or public policy, graduates emerge well-prepared to succeed in the dynamic and interconnected world of economics and business.

3

Economics - Peking University

The degree provides training in the principles of economics and their application to a range of problems, including government economic policy. Optional courses encourage diverse research interests including international trade, risk management and economic history. The course also allows for exchange programs in leading institutes such as the University of Toronto and Berkley University.

OUR TOP PICKS - RELATED PROGRAMMES EDITION

Here are some specific program recommendations related to the field and with very interesting approaches. **Please note** that this reflects only our opinion. It should not replace the need for research based on your own preferences.

1

International Economics and Management - Bocconi University

You will learn to understand and analyze the dynamics of globalization of cultures and operations and relationships among countries at the European and extra-European levels. Content is tailored to give you solid preparation in the field of international economics and management and a distinctive international perspective.

2

International Shipping and Trade - Copenhagen Business School

The BSc Shipping at CBS is unique, focusing exclusively on the shipping industry. It offers specialized insight into the operations, strategies, and management of shipping companies, emphasizing a global and dynamic industry context, unlike other programs that cover general business knowledge.

3

World Bachelor in Business - Bocconi University

In a select class of about 50 participants coming from all over the world, you will study at a different location and university each year, spanning three continents: the first year is in Los Angeles, the second in Hong Kong, the third in Milan and the fourth at your choice of one of these schools. The curriculum is rigorous and provides a solid foundation in business and economics.

***For more detailed information, check out our University Reports!**

NO.1 TIP

Given the volume of applications, focus on extracurriculars reflecting a passion for economics **and** showing strong analytic, mathematical and quantitative skills. E.g any competition? courses done? work experience in the field?

PERSONAL STATEMENT WARNING

Whether talking about a recent news story, how you meet targets in your weekend job, or simply why you want to study economics, that spark of genuine motivation and strong quantitative skills will get you noticed.

ECONOMICS PERSONAL STATEMENT (IN A NUTSHELL)

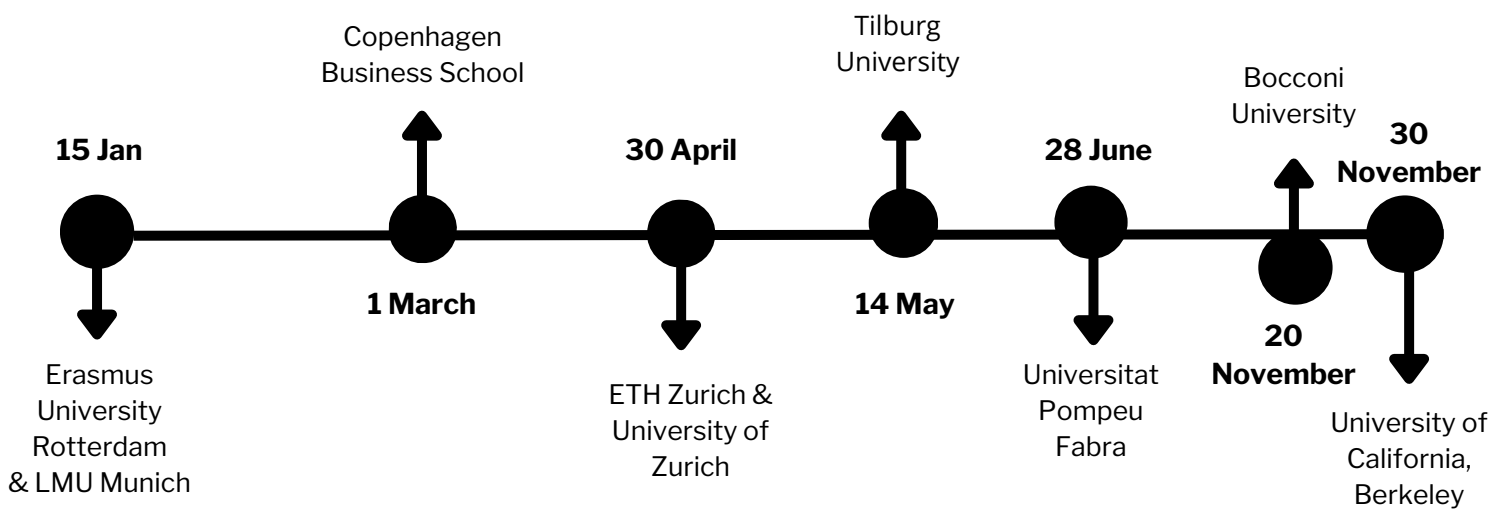

Economics admissions tutors are looking for evidence of:

- strong quantitative skills.
- an analytic thinker.
- an independent learner.
- a good communicator with good knowledge of economic history.
- an interest in what's happening in economics - whether macro, micro, local or global.
