The purpose of this report is to provide students with overall information about the application procedure to this specific university. In case of seeking more specific requirements, individual research is necessary.

ABOUT

Bocconi University, located in Milan, Italy, is a renowned institution in the areas of business, economics, and social sciences. Established in 1902, Bocconi is highly regarded for its innovative approach to education, combining rigorous academic programs with a strong emphasis on real-world applications and global perspectives. Notable graduates include the Former resident of the European Central Bank, Mario Draghi.

INTERESTING FACT

An interesting fact about Bocconi is that it has recently introduced the innovative Bachelor of Science in Mathematical and Computing Sciences for Artificial Intelligence (BAI). The program shows a decisive entry into the field of artificial intelligence.
