

For the purpose of this letter, the actual name has been replaced with “Candidate”.

Dear Admission Team,

My name is Marek Nowicki and I am an English teacher at Liceum Ogólnokształcące nr 8 in Wrocław. I am writing to recommend Candidate for your BA Media and Communications course. I have taught Candidate for the last two school years, and during this time I have had many opportunities to observe their progress, work ethic, and growing interest in subjects connected not only with language but also with culture, media, and communication.

Candidate has always approached lessons with seriousness and responsibility. They try to understand the deeper meaning of texts we analyse, and they show curiosity about how language and media shape modern society. Their final project on communication trends among young people was prepared with a lot of attention and independent thought. Candidate examined how visual content influences opinions, and they were able to combine simple data interpretation with their own reflections. In class, Candidate participates lively in discussions even on topics she is not that familiar with. Her improvement in spoken and written English were phenomenal over the last two years, and from what I know from other teachers in our school, she is demonstrating similar growth in other subjects too.

Outside the classroom, Candidate has also been involved in charity activities in Wrocław. For the past year, they have helped at a local community centre that organises support for elderly residents and low-income families. Candidate assisted with preparing food packages, sorting donated clothes, and sometimes delivering small items to people who were not able to come in person. They also helped during two weekend charity events where volunteers organised activities for children and collected funds for school supplies. In these situations, Candidate showed patience, responsibility, and a very warm attitude towards others. In my opinion, this kind of work demonstrates their ability to communicate, to stay organised, and to cooperate in a small team — qualities which will be very helpful at university.

Based on Candidate's achievements at our school, I am confident they will be able to succeed in the Media and Communications programme and make good use of the opportunities offered by the University of Southampton. Please let me know if there are any additional questions I could help with.
