

For the purpose of this letter, the actual name has been replaced with “Candidate”.

Dear Admission Committee,

As Vice Principal and Biology teacher of [School Name], I have had regular contact with Candidate over the past two years and have been able to observe their development both academically and within the wider school community. Candidate is a reliable and conscientious student who approaches their studies with consistency, which has contributed to steady academic progress across her IB subjects.

Candidate has taken on several responsibilities that reflect maturity and initiative. They served as a Year Representative on the Student Council, where they were responsible for coordinating communication between students and faculty. In addition, they played a key role in organising our 2023 Christmas Charity, helping manage donations and logistics alongside our community-service team. Candidate also represented the school in interschool debate events, demonstrating clear articulation and an ability to engage respectfully with opposing viewpoints.

Candidate conducts herself with professionalism and demonstrates the study habits and personal responsibility expected of students entering a bachelor’s programme. I am confident they will transition well to a university environment and contribute positively to the academic community at your university. Should you require any additional information, please feel free to contact my office.
